Retail staff scheduling that puts store performance first

The Tulip Story.

Unlocking the power of stores for the world's leading retailers

Tulip's technology powers a modern store experience for some of the most forward-thinking retailers around the globe. Partnered with Apple and Salesforce, Tulip equips sophisticated retailers to build connections with customers, fulfill orders, checkout purchases, and optimize operations in order to create the end-to-end experience today's customers expect. Leading retailers like Saks Fifth Avenue, Kate Spade, COACH, and Michael Kors use Tulip to elevate the shopping experience, increase sales, and improve customer service across channels.

▲ **55%**

Increase in clienteling conversion rate *

▼ **50%**

reduction in time spent scheduling each week *

▲ **2x**

Increase in ecommerce conversion rate *

One of the most important things is getting a seamless experience presenting products to the customer on a customer-facing application. Now we have flexibility by not having a fixed till. And in terms of the customer journey, it makes it so much smoother as there's no need to take someone over to a fixed point in a store.
